

Venture Documentation and Help System

Welcome to the Venture Documentation and Help System. Here you will find documentation regarding how to use our software products as well as recent development logs about them.

GoRev

is our healthcare information system offering with a plethora of features and capabilities. GoRev is a field-tested platform that has been used in all of these environments:

1. Free Standing ERs
2. Hospitals
3. Surgical Centers
4. Physician Practices
5. Toxicology, Pathology, and Genetic Testing Laboratories
6. Anesthesia Services

Currently, it is under active development and experiences new feature releases multiple times a month.

GoRev Information and Training

Please see the sections below for more information about GoRev.
